## **1.6 Curriculum**

PSU Wittayanusorn School develops its own curriculum based on the requirements of the national Curriculum of Basic Education, and conducts revisions triennially.

The four curricula the school has made are the 2002 curriculum, 2005 curriculum, 2009 curriculum, and 2013 curriculum. Each of them is constructed based on the school's duty to nurture talented students and suggestions from students, parents, teachers, school counsellors and others involved. The significant change from 2005 to 2009 curriculum is the expansion of the varieties of elective subjects and the introduction of the subject Scientific Inquiry and Nature of Science, which familiarizes new students with scientific experiments and ways of thinking.

Learning activities are extended to outside the classroom. Extracurricular activities, including one student science project under close mentorship and supervision of professors from universities. Other requirements focus on the academics, such as attending guest lectures, finishing certain readings, participating in educational trips and camps, and those focused on social aspects, such as volunteering for the school and neighborhood, exercising, and organizing camps for underserved children in the rural and suburban area. Moreover, the school expects students to learn and practice Thai traditional dance.

## **1.7 Teaching Plan**

The teacher always follows the teaching plan while he was teaching. Because the teaching plan is an important, it might include an objective or goal, the steps of the lesson, the expected outcome and room to make changes along the way. So, it is an important part of educating and behavior management. Proper classroom planning will keep you organized and on track while teaching, thus allowing you to teach more.
