

4. Observation on Teacher(s)

4.1 Planning for Teaching

The teacher always plans for teaching because the planning for teaching helps the teacher to be better equipped in answering questions asked by the students

4.2 Preparing Lesson Plan and Materials

The teacher always prepares the lesson plan and he has already finished it before he taught. And the materials are white board, loudspeaker, LCD projector, laptop, board maker, Power point sliders, video, students' exercise. She always uses these materials for teaching, learning, playing the game, doing activities and testing every class.

4.3 Teaching in Class

The teacher does it like this every class :

4.3.1 Pre - Activities

- a. Greeting the students.
- b. Checking the students' attendance.
- c. Reviewing the lesson of the previous meeting
- d. Telling the purpose of the study and giving them motivation to learn it.

4.3.2 Whilst – Activities

- a. Explaining little bit about the topic and opening the slide.
- b. Giving the handout to the students and asking the students to answer.

4.3.3 Post – Activities

- a. Giving the exercise and testing (paper)
- b. Concluding the lesson by asking them some questions about the topic.
- c. Asking the students whether they have questions / problems about the lesson or not.
- d. Closing the lesson

4.4 Measurement and Evaluation

In the end of the class, teacher always gives some paper or writes some questions in the back board for testing the students in this lesson. The ways for checking measurement and evaluation. By the way, teacher can check herself in teaching too.
