It is the first time in my life to practice teaching in Guidance subject. So, everything is challenges of my practicum. I am very excited and afraid for my teaching. In the first class and first time, I taught I felt I did it very bad but my teacher and my supervisor told me I did it best. But in my heart I still think, I did it very bad. So, I cried. my supervisor always cheer me up and she always gives her hug to me after I finished to teach. And it is ok. Finally, I can do it.

- 1) Teacher should use various of the media for teaching. Not use just LCD projector, speakers, Power point slide, video.
- 2) In the future, I think the school should have the curriculum in English language because of I need to translate Thailand language to Bahasa Indonesia language when I did my lesson plan. It used a long time to understand.
- 3) The program of Southeast Asian Ministers of Education Organization should be continuous and every year because it is the best program.
